

PCO (PEST CONTROL OPERATOR) TANKS

PCO tanks can be selected for stationary or transportable (non DOT approved) applications both indoor and outdoors. The 50-300 gallon tanks have a rounded bottom for best fluid drainage. A 2" deep sump option is also available on these sizes. PCO tanks must be securely anchored for use in transportable applications and powder coated steel bands are available for this purpose. The tanks are manufactured from medium-density polyethylene with U.V. stabilizers and designed for containment of liquids of up to 1.7 specific gravity.
