

# BULKITANKS

- Plastic bulk handling bins are designed for bulk handling, storage, and shipping of industrial materials and preprocessed food products.
- These plastic containers are suitable for both solids and liquids.
- RMI bulk material handling containers have a patented vertical gusset design for superior strength.
- Bulk storage bins have molded in pallet base available in 2 way or 4 way forkliftable entry.
- Heavy duty Containers/Bins are rotationally molded out of tough, impact resistant, durable one piece polyethylene.
- Reusable storage containers stack with the lid, nest when container is empty.
- Material handling containers are manufactured from FDA approved High Density Linear Polyethylene (Material meets ANSI/NSF Standard 61) for meat, poultry and food processing.
- Bins have vertical ribbing for added side wall thickness.
- Most containers have bottom sump and optional drain fitting for complete draining of liquid contents.

**Patented vertical gusset design; 4 WAY ENTRY; FLAT BOTTOM**  
In Plant Processing, Fermenting, Interplant Shipping, Meat, Poultry, Seafood

Item #	Forklift Entry	Outside Dim. (In.)			Wt. (Lbs.)	Working Capacities	
		L	W	H		(CuFt.)	(Gal.)
