## Bulk Material Handling and Transport Containers

- These mobile bulk handling trucks are designed to meet a variety of shipping and storage needs
- Containers/Trucks are rotationally molded out of tough, impact resistant, durable one piece polyethylene
- Storage containers stack with the lid, nest when empty, making them ideal for returnables
- Material handling containers are manufactured from durable, FDA approved High Density Linear Polyethylene (Material meets ANSI/NSF Standard 61) for meat, poultry and food processing
- Bins have vertical ribbing for added side wall thickness, and roll-over lip.
